ABOUT LIMELIGHT

Limelight Costume Services Limited

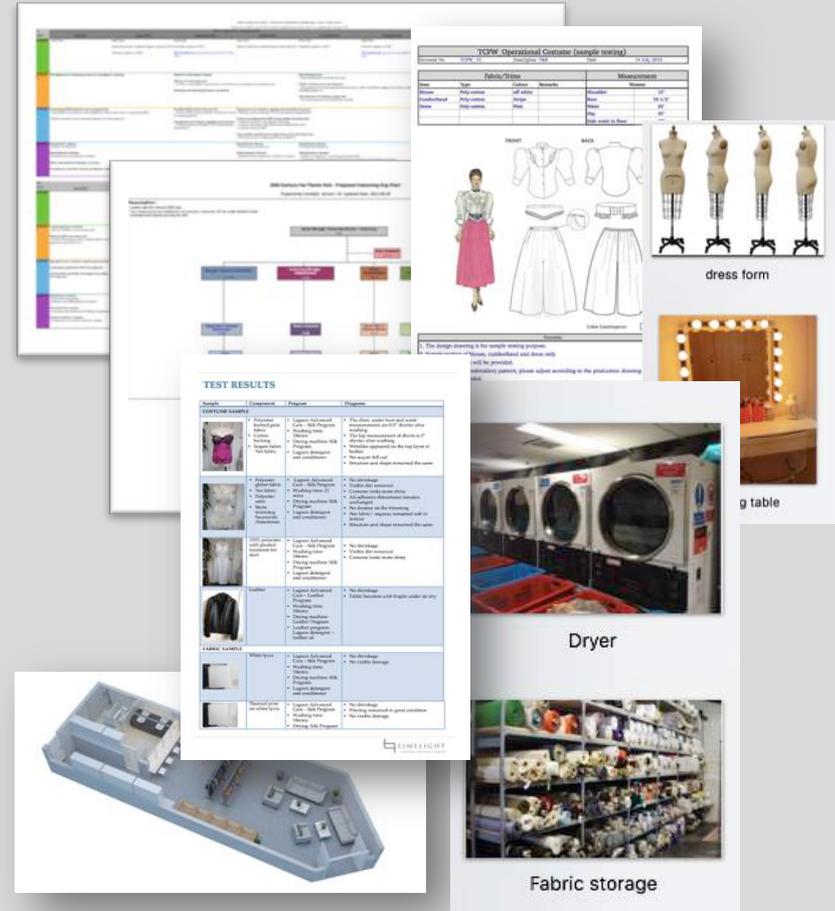

Founded by Virginia CHU in 2006, an award-winning Hong Kong Costume Designer, Limelight Costume Services Limited (“Limelight”) provides a complete range of costuming services, from costume design and manufacture to performance installation. As the first and largest costuming consultancy in the Asia-Pacific region, we also assist our clients in planning, development, design, manufacturing, operation and maintenance of costume elements. Our wide-ranging experience and abilities will create a synergistic effect in managing all facets of the costume development process, providing comprehensive solutions to your costuming needs.

OUR SERVICE

A. Costuming Consultancy

As a trailblazer in the entertainment industry, we are the first to offer costuming consulting services, across the disciplines of planning, development, design, manufacture, operation, care and continuity of all costume elements, primarily in the areas of:

1. Hardware & software set-up & installation
2. Line of business
3. Operations & logistics performance improvement

OUR SERVICE

C. Costume Prototyping & Production

Our strength has always been our ability to combine creativity and our professional knowledge in construction and fabrics, to construct highest standards of costume with attention to aesthetics, comfort, flexibility and durability.

We constantly examine the symbiosis between traditional handcrafted techniques and technological innovation to develop well-fitting and comfortable costumes that support storytelling. The prototyping and production process involves:

- Design analysis
- Collaboration with designers
- Experimentation with materials treatment, cut and construction
- Prototype construction to test for fit, functionality, style and client approval
- Final production with strict quality assurance at every step of the manufacture process

OUR SERVICE

D. Wardrobe Management

Limelight assists and works in collaboration with our clients to set up, operate and manage the Wardrobe Department for show running. We play a subsidiary role in supervising wardrobe-related activities and co-ordinating day-to-day operations prior to and during the run of a show, including:

- Consultation on planning and creating the wardrobe floor plan and facility set-up
- Advisory on costuming equipment and machinery requirements
- Advise on laundry procedures and care instructions
- Advise on delivery arrangement, daily operation and logistic flow of the department
- Oversee and supervise on-site fitting and alteration
- Provide documentation advice, such as creating a costume plot and costume change list, etc.
